January 9, 2017

To Whom It May Concern:

Johanna Pratt was a student teacher in my grade 5 classroom for 9 weeks. She was responsible for teaching all core subjects as well as Phys Ed to 18 students. During this time she planned, taught and assessed a Social Studies unit on the Physical Regions of Canada, a Chemistry unit in Science, a Data Management Unit in Math, a Basketball unit in Phys Ed as well as various mini-units and lessons in Language Arts and Health.

Johanna acts as a professional and always has a positive attitude. Her lessons are engaging and include many different learning styles. She does her best to reach all students. Johanna continually asks for feedback and constructively acts to improve her work. She also pushes herself to become part of the school community outside the classroom. Johanna is kind and respectful towards students and truly loves teaching.

I am confident that Johanna would be an asset to any staff she works with. She is goal oriented and will go above and beyond in any position she is put in. Johanna sees herself as a learner as well as a teacher and will continue to grow as a teacher with further opportunities. Feel free to contact me at Alix-MAC School by phone at 403-747-2778 or by email at lindsay.winslow@wolfcreek.ab.ca.

Sincerely,

Lindsay Winslow
